

The image is a technical drawing of a map sheet, likely a topographic or cadastral map, titled "Arkusz-43". The map depicts a coastal region with green contour lines indicating elevation. A prominent black line represents the coastline, and a red diagonal line runs across the upper left portion of the map. Three circular callouts, numbered 58, 59, and 60, are positioned along the left edge of the map, possibly indicating specific locations or features. The map is overlaid on a grid of purple lines, which may represent a coordinate system or a specific grid used in the mapping process. The overall style is that of a technical drawing, with clear lines and a focus on geographical details.
